# Flutter Mock Test

## Instructions

- Time: **3 Hours**
- Attempt all questions
- Use **Flutter + Dart**
- Use **setState / basic state management only**

## Problem Statement

Build an **Expense Tracker App using Flutter and Hive (Local Database)**.

The app should allow users to **add, view, update, and delete expenses**, and calculate the **total expense**. The app must work **offline** and persist data locally.

## Screens Required

1. Home Screen (Expense List)

UI Components:

- AppBar → Title: **Expense Tracker**
- Text → **Total Expense**
- ListView → Display all expenses
- FloatingActionButton → **Add Expense**

## Expense Data Model

Each expense should contain:

- Title (String)
- Amount (double/int)
- Date (String or DateTime)

Store data using **Hive Box**

## Add Expense

UI:

- TextField → Title

- TextField → Amount
- Date Picker (or TextField for date)
- Button → Save

### Functional Requirements:

- Validate:
  - Title not empty
  - Amount must be a number
- After adding:
  - Navigate back to Home Screen
  - Data should update immediately

# Display Expenses

### UI:

- Use **ListView.builder**

Each item should show:

- Title
- Amount
- Date

### Functional Requirements:

- Fetch data from Hive
- UI should refresh when data changes
  (use `setState()`)

# Update Expense

### UI:

- Tap on expense → Open Edit Screen
- Pre-fill existing values

### Functional Requirements:

- Update using:

  ```
  box.putAt(index, updatedData);
  ```

- After update:

    - Navigate back
    - Changes should reflect immediately

# Delete Expense

UI:

- Add delete icon/button for each item

## Functional Requirements:

- Show **confirmation dialog**

  "Are you sure you want to delete this expense?"

# Total Expense Calculation

UI:

Display at top:

```
Total Expense: ₹XXXX
```

# App Behavior

- Data must:
    - Persist after app restart
    - Work without internet

# UI Expectations

- Clean layout
- Proper spacing
- Use ListTile / Card
- Highlight amount clearly

# Packages Required

- `hive`
- `hive_flutter`
